No. 13.

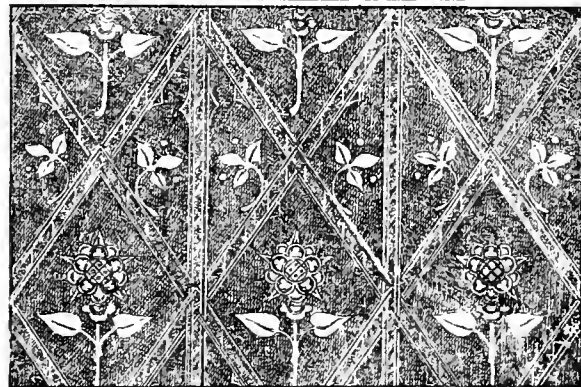

A VARIETY OF PATTERNS FORWARDED ON APPLICATION.

No. 7.

No. 17.

Tape hangings are recommended for use against East Walls, and around the Sanctuary: they may be used in stripes, alternating in colour, with good effect, as Red Ground and Gold Device, and Green Ground and Gold Device, or the like. A good effect is produced by the use of Nos. 12 and 13 Damasks and Tapestry Hangings, as a Dossal for the Altar, or to the extent of the Footpace, the rest of the Hangings being of inferior materials. An Embroidered Altar Dossal is also recommended, with hangings on each side. The Dossal can hang slightly in advance of the other hangings.

No. 7.—Red and Gold and Light Blue and Gold, 50-in. wide, 10 6 per yard.

No. 9.—Red and Gold, Ruby and Gold, Green and Gold, Red and Ruby, 5 6 per yard.

No. 13.—Silk and Wool Tapestry, 52-in. wide, 12 - per yard, in Red, Green, Gold, Blue and White, and three shades of Olive Green, Gold and Red.

No. 17. Red and Gold and Green and Gold, 54-in. wide, 10 6 per yard.

Patterns on application, carriage Paid.

SURPLICES.

Lichfield shape

Plain shape

London shape

Pocket surplice

CLERGY SURPLICES—a very large stock always ready.

1.—Lichfield Shape.

This much approved Surplice is made perfectly plain, without opening or seam in front; it is cut to fit rather closely about the body, great care, however, is taken to preserve the graceful effect of the drapery.

Made in extra-fine Irish Linen.

LENGTH: 34 to 38, 16/- 38 to 42, 18/- 44 to 48, 21/- 50 to 56, 25/-

2.—Plain Shape.

This Surplice is quite plain at the neck, and has a small opening in front; if preferred it can be made open all down the front, but it is then necessary to cut it fuller so that the edges may overlap: this detracts somewhat from its appearance.

LAWN	14-	18-	20-	25	30-	35-	40-	45-	50-
LINEN	12	15-	18-	21-	25-	30-	35-	40-	45-

3.—London Shape

This elegant Surplice is slightly gathered at the neck, and is made with a small opening at the front; if desired it can be made to open all down, the drapery being sufficiently ample to prevent it opening when walking.

LINEN	16-	20-	25/-	30-	35/-	40-	45/-
LAWN	25-	30-	35/-	40-	45/-	50/-	55/-

4.—Pocket Surplices. PLAIN OR SLIGHTLY GATHERED.

This Surplice is made in light Scotch Cambric, and folds into a very small compass, so that it can be carried in the pocket without inconvenience. It has no opening in the front.

Made of Scotch Cambric, in Case	18-	21-	extra long, 23/-
" " without Case,	16/-	to 18/-	" 20-

In ordering it will be requisite only to state length required from bottom of collar behind, and height of wearer.

PATTERNS OF MATERIALS SENT BY POST IF REQUIRED.

Silk Velvet ... 5/6 and 6/6

DIRECTIONS FOR MEASUREMENT.—CASSOCKS. (See diagram on next page.)

From 1 to 3 downwards for the required length, from 4 to 5 and 5 to 6 for elbow, and on to 7 for aleave length, round the seam at 5 and wrist at 7, round the breast at 8, and waist at 2 for belt, these two last under the coat, height of the wearer, exact size round the cravat, and development of the chest.

"English" Surplice.

The attention of the Clergy and Churchwardens is respectfully directed to the correct form of Surplice here illustrated; this, the ancient English Surplice is far more graceful and dignified than the close cut cotta-like Surplices now much in use. The "English" Surplice is daily growing more popular, and Messrs. J. & W. have determined to aid the promoters of a revived taste for correct church vestments by making at prices which will place them within the reach of all.

CHURCH LIGHTING.

THE "CATHEDRAL" LAMP.

JONES & WILLIS, SOLE MAKERS.

TO BURN PARAFFIN AND OTHER MINERAL OILS.

No. 1. Equal to 90 Candles. | No. 2. Equal to 55 Candles. | No. 3. Equal to 28 Candles.

Messrs. JONES & WILLIS having had great experience in Lighting Churches and other large buildings with Oil Lamps, Gas, &c., beg to bring to the notice of the Clergy, Architects, and others interested, the above new Patent Lamp.

The Burner is circular in plan, and is fitted with **one winder**, as shown on accompanying drawing. It gives a pure, steady, white light, and keeps remarkably cool: this is a great consideration in a burner giving such a large light, the great heat attained by other large burners rendering them almost useless. The consumption of oil consequent on its keeping so cool is less than any other lamp of the same illuminating power. It is fitted with a stop which prevents the wick being turned into the oil, rendering an extinguisher unnecessary. This Burner, too, is not so sensitive to draughts as round wick burners with air shafts; a great consideration for Churches.

The No. 2 size, which is recommended, can be fitted to any of our designs now shown with Hesperus burners, at the same cost; the larger one would be 5/- extra, No. 3, 7/6 less. J. & W. can confidently recommend this Lamp as being eminently adapted for Churches and other Buildings where a large and economical light is required.

Although the Lamp itself is a little more expensive than Duplex or Single Flat Wick Lamps, the cost for lighting a Building is much less, as two No. 2, "Cathedral" Lamps (which is the medium size), will give as much light as five duplex or ten single wick Lamps, consequently there is less trouble in attending to them, and fewer fittings are required, and the Church or other Building is lighted very much more efficiently, the appearance, too, being more artistic: for instance, a Church with these Lamps can be lighted better even than with gas.

THE "CATHEDRAL" LAMP.

..... DIRECTIONS FOR USE.

Principle.—The principle of the "Cathedral" being based upon the *double wick system*, an easy and steady transfer of oil from the reservoir to the flame is secured by placing the burning cotton in **closest proximity** to the feeding cottous, to which the former is fastened by a set of clasps as shown in section.

Burning.—Whilst burning, the Wick must be kept *below the surface of the Crown or Chimney Gallery*.

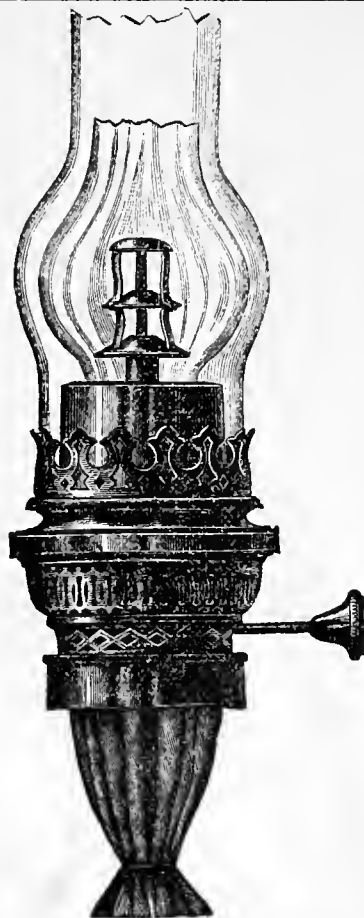

Cottoning.—When adjusting a fresh burning cotton, remove the chimney gallery, unscrew the wick tube and raise the wick holder to its extreme point; then slip on the wick which must rest on the feeding cottons and fasten it by means of the clasps. Replace the tube and level the cotton with its surface. A renewal of the drawing or feeding cottons is unnecessary, their only purpose being the transmission of the oil from the reservoir to the burning cotton.

Trimming.—The wicks once carefully singed, an even and full flame will be produced by carefully rubbing off the charred parts with soft paper (after the chimney gallery has been removed), and by pushing back any fine particles of cotton that may be visible beyond the surface of the wick tube. The "Cathedral" Cotton being of the very softest and best quality *no scissors* should be used for trimming the burner.

Cleansing.—The inner tube holding the button being moveable, any accumulation of charred wicks may be easily removed. When replacing the tube, firmly push it to the bottom of the burner.

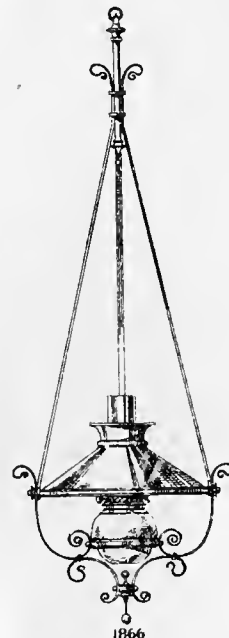

~~~~~  
*To obtain the full lighting power of this Burner it is imperative to use "Cathedral" Chimneys; which are made of best Crystal Glass and bear the above Trade Mark neatly engraved; without this none are genuine.*

All J. & W.'s Table and Hanging Lamps can be fitted with the "Cathedral" Burner if desired.

## Price List for Windows containing not less than 20 superficial feet.

| SCALE.                           |                            | SCALE.                           |                            |
|----------------------------------|----------------------------|----------------------------------|----------------------------|
| $\frac{1}{4}$ of an in. to 1 ft. | $\frac{1}{4}$ in. to 1 ft. | $\frac{1}{4}$ of an in. to 1 ft. | $\frac{1}{4}$ in. to 1 ft. |
| No. 9. „ 12 6 to 17 6            | „ „ 10 6 to 15 -           | No. 12. „ 3/-                    | „ „ 2 6                    |
| „ 10. „ 10 6 to 15 -             | „ „ 8 - to 12 6            | „ 13. „ 10 6 to 25/-             | „ „ 8 6 to 20/-            |
| „ 11. „ 7 6 to 10 6              | „ „ 7 - to 10 -            |                                  |                            |

Above prices are per square foot.

NOTE. It will here be observed that prices vary when the scale is larger or smaller; as the larger the scale the more detail would be in a superficial foot, and the smaller the scale bolder would become the treatment, and therefore less costly per superficial foot. Very bold work would, of course, only be suitable for long distances from the sight. In ordering special designs to be prepared, it is of great importance that the position should be stated, whether North, South, East or West, also about what height from ground.

J. & W. WILL GREATLY ESTEEM  
A VISIT TO THEIR SHOW ROOMS, 79,  
EDMUND STREET, BIRMINGHAM, WHICH  
CONTAIN THE LARGEST DISPLAY AND  
STOCK OF CHURCH FURNITURE, &C.,  
IN THE COUNTRY.

## EASTER, 1889.

---

*To avoid disappointment, J. & W. will be obliged if  
Orders can be forwarded at as early a date as possible.  
This notice applies more especially to Embroidery and  
Fine Art Work, the execution of which cannot well  
be hurried.*
